#### **Review of Results**

The unaudited turnover of the Group for the six months ended 30 June 2006 (the "Period") was approximately RMB467,373,000, representing a decrease of approximately 14.4% compared with approximately RMB546,105,000 for the corresponding period last year while the net loss attributable to shareholders was approximately RMB10,025,000, compared with the net profit attributable to shareholders of approximately RMB9,970,000 for the corresponding period last year.

#### **Business Review**

Following the prices of steel products have dropped significantly in the second half of 2005, the national economy of the PRC is basically achieving a balance in the first half of 2006. Prices of steel products for first guarter of 2006 continued the trend from the end of last year which remained at a low level, and starting from March 2006, as a result of increase in total demand, the prices of steel products started to rise again. However, the overall steel product prices during the Period were still substantially lower than those of the corresponding period last year. Sales volume of Group's steel products during the Period decreased 7.1% from approximately 70,000 tonnes for the corresponding period last year to approximately 65,000 tonnes. The average selling price of the Group's steel products during the Period decreased by approximately 17.8% compared with that for the corresponding period last year, the gross profit decreased and was mainly because of relatively lower growth rate of the selling prices of our steel products as compared to that of the purchasing costs of raw materials and fuels during the corresponding period last year.

#### 業績回顧

#### 業務回顧

隨著鋼材產品價格於二零零五年下 半季大幅下滑,中國國民經濟於二 零零六年上半年逹致平衡。鋼材於 二零零六年第一季之價格維持去年 年底趨勢,價格依然處於低水平, 自二零零六年三月起,由於需求總 額增加,鋼材價格再次上升。然 而,整體鋼材價格於本期間仍然較 去年同期大幅下滑。於本期間,本 集團鋼材銷量較去年同期約70,000 噸減少7.1%至約65,000噸。於本期 間,本集團鋼材平均售價與去年相 比減少約17.8%,毛利亦下降,主 要原因是與去年同期原料及燃料之 採購成本比較,公司鋼材售價之上 漲幅度相對減少。

# Outlook

Under the macro-economic control policy, the growth rate will slow down in the second half of 2006. According to the "Strategy on the Development of the Steel Industry" promulgated by the State, the development of the steel industry will be directed towards controlled volume, technology upgrade, industrial layout and product mix adjustment, so as to combine the impact of an increase in new capacity with the phasing out of laggards. Following the new installation of steelcutting and pipe-making machines, the Group's future production capacity and market competitiveness would be enhanced to meet the steady but moderately fast growth of the national economy of the PRC.

Looking forward to the second half of 2006, the imbalance between demand and supply in the steel sector will continue and the prices of steel products will still remain at a relatively low level. The Group's management is confident that the Group will fully capitalize its extensive experience in cost management and achieve greater cost effectiveness, increased output of high value-added products and welcome to every investment opportunity which are beneficial to the Group, with an aim to generate the best return from investments and generate the best returns to our investors.
